CREATIVE DESTRUCTION
DESIGN INNOVATION IN THE FACE OF EXISTENTIAL THREATS

In a tumultuous year when the resilience of healthcare globally has been tested to the limit by the pandemic, the pressure to adopt a climate-smart development path for designing, building, operating and investing in health systems and infrastructure has also increased significantly.

The history books will pronounce 2020 a watershed year – a year when health systems, already strained in dealing with chronic and lifestyle illnesses among ageing populations, were thrown into a prolonged, arduous battle against a new highly infectious disease.

While we are not, as yet, able to determine what a post-pandemic world will look like, we have had time to reflect and look beyond the design of field hospitals and the adaptation of existing facilities. Our response to Covid-19 is one of three major directions of travel over the past decade in the way we design the physical and social architecture of healthcare, alongside climate change mitigation and realising the disruptive value of digital technology and medicine.

The pandemic has brutally exposed the faultlines in our health and care systems, and tested the relationship between the state and citizens. In combination with the rapid advancement of digital and medical technology, how can our health and care systems and infrastructure be reshaped and reconstructed in a way that promotes, creates and protects health for all?

Indeed, Covid-19 is one of two interconnected existential threats to human health, of which the planetary health crisis presents a more fundamental challenge. The changing climate is leading to more frequent heatwaves and extreme weather events such as flooding, including the potential spread of infectious diseases.

Reconstruction offers real opportunity

But it’s not enough for health systems to limit themselves to treating health problems caused by air pollution and climate change; they must rise to the challenge of tackling them at source. There are positive signs of progress, with the NHS committing to a multi-year blueprint to become the world’s first carbon net-zero national health system, and new guidance from the World Health Organization aimed at supporting healthcare facilities to anticipate, respond to, recover from, and adapt to climate-related shocks and stresses, while minimising negative impacts on the environment.

Covid-19 has been a cruel stress test of our social and healthcare systems and facilities. There is now a real chance to re-evaluate these systems – public, acute and social – and repair, strengthen or restructure them wherever necessary.

Over the past few months, there has been a sudden acceleration in the opportunities that digital medicine offers for remote diagnosis, consultation, chronic disease management, and home working. The basic structure of ambulatory medicine has confirmed the need for flexible, multi-acuity single rooms in hospitals, as well as an increase in skilled staff and critical and high-dependency beds.

Sustainable buildings equal healthy buildings

Undoubtedly, the importance of movement systems in the design of the ‘chassis’ of our health facilities has been reinforced. Most importantly, it has demonstrated that much of the global healthcare estate is made up of ‘unhealthy’ buildings.

The past year has clearly demonstrated the need for better care structures and greater protection. The crisis has reminded us, too, of
what we have known for centuries – that poor housing, impoverishment and social disconnection damage health and widen health inequalities. And it has also highlighted the critical importance of joining up our health and care system with public health so we can focus on the wider determinants of health that define how a progressive and equitable society functions for all.

This year’s congress is an opportunity to craft a blueprint for reconstruction, a creative assertion of the power of design. We should embrace the three directions of travel – responding to Covid-19, the growth of digital technology, and climate change mitigation – recognising their potential to catalyse change, creativity and innovation, and proposing ways in which they can help transform our health systems and architecture.

European Healthcare Design 2021 features four days of insightful, provocative and entertaining talks, workshops and panel discussions. Days one and two will open with keynote plenary sessions, before splitting into three streams (12 in total). A keynote plenary will also begin the two-day COVID-19 Global Summit (a conference within a conference), which runs on days three and four. And the final session of day four will be devoted to a virtual ceremony to present the EHD2021 Awards, supported by lead sponsor IHP.

The congress will also host a poster gallery of innovative research and design projects (p17), an Awards Poster + Video Gallery, and an Innovation Zone of design and technology solutions (p18) and seminars.

For details about online registration and sponsorship opportunities, please go to page 19. Please note that all times in the programme are British Summer Time (BST).
In direct response to the pandemic, we are excited to announce that the COVID-19 Global Healthcare Design Summit will return this year, with the core theme: Pandemic preparedness: Designing in resilience to strengthen health systems, services and infrastructure. This ‘conference within a conference’ is fully integrated into the 7th European Healthcare Design Congress and brings global knowledge and learning together from the pandemic response, preparedness and impact.

In less than a year, the emergence of a new human coronavirus has brought global society to a standstill, sent vibrant economies spiralling into freefall, overwhelmed and placed untold stress on health systems, and caused death, illness and despair to billions of people worldwide. As this existential shock and continuing threat to life and livelihoods reverberates through societies, international health systems are adapting and reshaping at speed. The direct and indirect impacts on physical and mental health will be felt for years to come.

While vaccines bring hope that the Covid-19 pandemic can soon be controlled, many health systems remain in crisis. And as the World Health Organization has been keen to stress, although the vaccination roll-out is well underway in many high-income countries, a global immunisation programme will take longer to take effect, while questions remain over how long immunity will last.

The programme for the COVID-19 Global Summit (see Stream 7, page 11 and Stream 11, page 15) will launch with keynote talks from two global health leaders who have been involved in work relating to the pandemic on a number of fronts:

LEO YEE SIN
Executive director, National Centre of Infectious Diseases, Singapore

LAYLA MCCAY
Director of policy, NHS Confederation, UK

The first day of the Summit (16 June) will feature sessions looking at: learning the lessons across the care continuum; caring for older people in a pandemic; and rapid and adaptive pandemic response.

The second day of the Summit (17 June and final day of the virtual EHD2021 Congress) will include sessions looking at: pandemic resilience design strategies; infection control and airborne transmission; and managing healthcare capacity in a pandemic.

We are delighted to invite you to participate in the COVID-19 Global Healthcare Design Summit: Pandemic preparedness: Designing in resilience to strengthen health systems, services and infrastructure to learn from, share and contribute towards a truly global dialogue around the current and future impact of the pandemic on the way healthcare systems, services and infrastructure are planned and designed.
DAY 1, STREAM 1: CLIMATE-SMART HEALTHCARE
14 June 2021 Main stage (all times are British Summer Time; all sessions streamed exclusively online)

SESSION 1
Opening plenary
Chair: John Cooper, Architects for Health, UK

08.45
Chair’s welcome
John Cooper, Programme chair, Architects for Health, UK

09.15
Keynote address: Environmentally sustainable healthcare: now is the time for action
Tony Capon, Professor; Director, Sustainable Development Institute, Monash University, Australia

09.30
Keynote address: The big challenges in healthcare as seen from the bedside and clinic
Andrew Goddard, Professor; President, Royal College of Physicians, UK

09.30–10.15
Panel discussion

SESSION 2
Sustainable health systems and hospitals
Chair: John Cole, Queen’s University Belfast; International client advisor, UK

11.00
Investing in sustainability as a lever for health systems change: a system-level analysis for the Netherlands
Menno Hinkema; Roberto Traversari; Norman Egter van Wissekerke, TNO, Netherlands

11.15
Future generation of full zero-carbon hospital
Christian De Nacquard, Bouygues Batiment International, France

11.30
Futureproofing healthcare buildings through biophilia and the WELL standard
Robert Hopkins; Gareth Banks, AHR, UK

11.45
Joseph Bracops: an urban hospital based on the sustainable principles of the circular economy
Coen van den Wijngaart; Laurent Grisay; Joost Declercq, archipelago architects, Belgium

12.00–12.30
Panel discussion

SESSION 3
Healthy community design and infrastructure
Chair: Mohammed A Ayoub, HDR, USA

14.00
ReGen Villages: future-proofing residential communities through integrated regenerative systems
James Ehrlich, ReGen Villages, Netherlands
Chris Ford, Stanford University, USA

14.15
Care, Commerce & Nature: developing a new model
Esther Wiskerke, Care, Commerce & Nature, UK

14.30
Reconstruction of healthcare facilities in Peru – with changes
Katie Wood, Arup, UK

14.45
Bringing the outside in
Louis A Meilink, Jr; Christina Grimes, Ballinger, USA

SESSION 4
Hospitals in the city
Chair: Brenda Bush-Moline, Stantec, USA

16.00
Oriel – a place for eye care, research and education
Sunand Prasad, Penoyre & Prasad, UK
Kieran McDaid, Moorfields Eye Hospital NHS Foundation Trust, UK
Rafael Marks, Penoyre & Prasad, UK

16.15
Permeable boundaries: designing for interdisciplinarity and public engagement in the city
Ewan Graham, Hawkins\Brown, UK

16.30
Implementing healthcare facilities in pre-existing buildings: Sancta Maggiore Hospital
Lara Kaiser, Perkins&Will, Brazil

16.45
How does a large hospital act as a good neighbour?
Coen van den Wijngaart; Laurent Grisay; Stien Poncelet, archipelago architects, Belgium

17.00–17.30
Panel discussion

Register at https://europeanhealthcaredesign2021.hubilo.com
# SESSION 5
## The digital hospital
**Chair:** Richard Cantlay, Mott MacDonald, UK

<table>

SESSION 8  
**Designing the clinician-patient interface**  
Chair: Ganesh Suntharalingam, Intensive Care Society, UK

<table>
<thead>
<tr>
<th>Time</th>
<th>Title</th>
<th>Presenters</th>
</tr>
</thead>
</table>
| 14.30 | Deconstructing the hospital to save it                                | William Hercules, WJH Health, USA  
Benjamin Bassin; Cemal Sozener, University of Michigan Health System, USA  
Diana Anderson, VA Boston Health System, USA |
| 14.45 | Effective clinical engagement in the intersection of medicine and design | Kate Bradley, MJ Medical, UK  
Liz Whelan, Greenwich University, UK  
Emma Stockton, Great Ormond Street Hospital, UK  
Jennifer Whinnett, Guy’s and St Thomas’ NHS Foundation Trust, UK |
| 15.00 | Implementing a ‘kitchen table consulting’ model in outpatients at Great Ormond Street Hospital | Crispin Walkling-Lea, Great Ormond Street Hospital for Children NHS Foundation Trust, UK  
Ellie Richardson, Guy’s and St Thomas’ NHS Foundation Trust, UK |
| 15.15 | Harnessing the built environment for patients with autoimmune diseases | Avani Parikh, Avani Parikh Architecture, USA  
Sanat Phatak, KEM Hospital and Research Centre, India |
| 15.30–16.00 | Panel discussion |                                                                 |

SESSION 9  
**Patient experience and preferences**  
Chair: Goran Lindahl, Chalmers University, Sweden

<table>
<thead>
<tr>
<th>Time</th>

</table>
| 16.30 | Pioneering healthcare environment research: building upon the Fable Hospital with an innovative approach to connect patient outcomes to design | Renae Rich; Francescqa Jimenez, HDR, USA  
Sheila DePaola, Parkland Health and Hospital System, USA  
Jeri Brittin, HDR, USA |
| 16.45 | The healing module – reimagining the inpatient environment            | Jamie Brewster, DB3 Architecture, UK |
| 17.00 | A national experiment with outpatient experience: results from the 2020 United States Outpatient Experience Index | Nicholas Watkins; James Crispino, Gensler, USA |
| 17.15 | Exploring the relationship between view quantity and quality and ratings of care in the hospital | Sahar Miandoust, Center for Health Facilities Design and Testing, Clemson University Architecture + Health, USA  
Anjali Joseph, Center for Health Facilities Design and Testing, Clemson University, USA  
May Woo, View, USA  
Sara Kennedy, Clemson University, USA |
| 17.30 | Patient request: single- versus multi-patient room                    | Birgit Dietz, Bavarian Institute of Architecture for Elderly and Cognitively Impaired (BlfadA) / TU Munich, Germany |
| 17.45–18.15 | Panel discussion |                                                                 |
SESSION 10
Keynote plenary: UK health infrastructure
Chair: Richard Darch, Archus, UK
08.55 Welcome and introduction
09.00 Keynote address: Delivering the New Hospital Programme
Natalie Forrest, Senior responsible officer and Craig McWilliam, Programme director, New Hospital Programme, NHS England, UK
09.30 Keynote address: New models of care and the future hospital programme
Nigel Edwards, Chief executive, Nuffield Trust, UK
09.45–10.15 Panel discussion

SESSION 11
Process of delivering an adaptable estates strategy for healthcare: FleXX Hospital
11.00–12.30 Healthcare procurement is a slow and lengthy process; it can take years to get from the outline business case to the completed building. Experience tells us that between bidding for and completing a hospital, certain departments will need to be changed, owing to advances in medical technology, changes in population disease profiles, and wider health system challenges. Outline business cases are written to unlock financing from central government. They capture a definitive point in time and therefore designs also respond to that frozen moment. This leads to buildings that are hard to adapt. This workshop will discuss FleXX Hospital, a cost-benefit analysis by HKS and Mott MacDonald that uses distinct functional and building layers to form an approach for developing the design principles for flexibility in healthcare buildings. Designing with flexible principles could enable change during the procurement, and even the construction process, with reduced cost implications as well as permitting easier adaptations during the lifetime of the building. We will discuss how unlocking the real estate potential of their estates will help NHS trusts achieve their long-term business strategies. The FleXX approach seeks to incorporate additional future revenue streams and create facilities that will be able to flex to accommodate not only evolving clinical functions but other, more diverse uses, too.
Panel: Rhydian Morgan, Mott MacDonald, UK
Dan Flower, HKS, UK
Sophie Crocker, HKS, UK

SESSION 12
The future hospital: The future health system
14.00–15.30 Set against the spectre of a climate emergency, the pandemic has disrupted embedded service models and practices, and accelerated changes in models of care, ways of working and digital transformation by arguably a decade or more. As we enter the fourth industrial revolution, genomics and personalised medicine, surgery from the inside out, biological 3D-printing, wearable monitoring devices for diagnostics, and on-demand pharmaceuticals ordered at home are just a few of the technological changes that will finally create the hospital without walls, delivering healthcare in our homes, workplaces and communities, such that only the critically ill may require hospitalisation. As a post-Brexit UK reaches out globally, its commitment to build 40 new hospitals by 2030 is an opportunity to radically change the way healthcare is delivered and set a new standard in health system and infrastructure design for the world, but are we ready and willing to learn the lessons of the past and embrace the future? This roundtable brings in international and interdisciplinary perspectives on the future of health and healthcare to ask: are we designing the future hospital or should we be designing the future health system with a radical refocusing of who, when and where the patient and citizen journey starts and ends?
Panel: Liz Paslawsky, SALUS Global Knowledge Exchange, Australia
John Cooper, Architects for Health, UK
Cliff Harvey, Niagara Health, Canada
John Cole, QUB, UK
Nigel Edwards, Nuffield Trust, UK
Richard Darch, Archus, UK

SESSION 13
Putting into practice the principles of the New Hospital Programme
16.00–17.30 A successful response to the ambitions and challenges of the New Hospital Programme requires a commitment to collaborative project working and an holistic approach to delivering the principles of intelligent hospital design, net-zero carbon, digital innovation, and modern methods of construction. In this session, Ryder, in collaboration with WSP and Hoare Lea, will discuss how the team has developed a standard platform approach for Whips Cross Hospital that can inform projects across the New Hospital Programme. In developing this approach, they have built on their experience in using modern methods of construction for healthcare, and digital technology applications; harnessing innovation in designing for optimum environmental performance; and delivering high-quality environments for patient and staff health and wellbeing.
Chair: Paul Bell, Ryder Architecture, UK
Panel: Graham Cossons, Hoare Lea, UK
Matthew Palmer, WSP, UK

Register at https://europeanhealthcaredesign2021.hubilo.com
SESSION 14
Designing health-promoting environments
Chair: David Martin, Stantec, UK

08.00 What we expect from our health facilities is changing for the better. A case study of the Herston Quarter and STARS Building, Brisbane, Australia
Kevin Lloyd, Hassell, Australia

08.15 A methodological framework for transdisciplinary research on therapeutic landscapes and chronic pain
Nafsika Michail, Northumbria University, UK
Charalampos K Kelesidis, Physiotherapist, UK

08.30 Emotions drive healing: how healthcare design could use emotion-based environments to support the healing process
Davide Ruzzon, Lombardini22, Italy

08.45– 09.15 Panel discussion

SESSION 15
Collaboration in hospital arts
Chair: Lianne Knotts, Medical Architecture, UK

10.00 Interdisciplinary approaches to hospital art and the senses: a case study from Great Ormond Street Hospital
Victoria Bates; Rebecka Fleetwood-Smith, University of Bristol, UK
Vivienne Reiss, Great Ormond Street Hospital, UK

10.15 A cross-sectoral perspective of the art programme at the New Hospital of Malmö, Sweden
Paula Block Philipsen, White Arkitekter, Sweden
Nilsmagnus Sköld; Isabel Sanchez Gamez, Regionfastigheter / Region Skåne, Sweden

10.30 Case study: A Danish approach to healing architecture
Stig Vesterager Gothelf, 3XN, Denmark
Mikael Pontoppidan, Link Arkitektur, Denmark

10.45– 11.15 Panel discussion

SESSION 16
Designing for child healthcare
Chair: Crispin Walking-Lea, Great Ormond Street Hospital for Children, UK

14.30 Designing with art in mind: lessons in selecting, procuring and curating art for the paediatric patient experience from three Canadian children’s health centres
Alexandra Boissonneault, Montgomery Sisam Architects, Canada

14.45 Childbirth made personal
Sarah Joyce, Leeds Beckett University, UK

15.00 The Alder Centre, a place like no other
Sue Brown, Alder Hey Children’s NHS Foundation Trust, UK

15.15 An observational study of circulating nurse’s workflow in paediatric operating rooms pre- and post-optimisation
Anjali Joseph, Center for Health Facilities Design and Testing, Clemson University, USA
Roxana Jafarifroozabadi, Center for Health Facilities Design and Testing, Clemson University, USA

15.30– 16.00 Panel discussion

SESSION 17
Custodial and mental health design
Chair: Alex Caruso, Design in Mental Health Network, UK

16.30 Art and architecture as a deflector to existential threats: the Skejby Mental Health Hospital
Birgitte Gade Ernst, Arkitema, Denmark

16.45 Creating a humane, healing environment: the New National Forensic Mental Health Hospital, Ireland
Ruairi Reeves, Medical Architecture, UK
Donal Blake, Scott Tallon Walker Architects, UK
Professor Harry Kennedy, National Forensic Mental Health Service, UK

17.00 The public health crisis of correctional health
David Redemski, HDR, USA

17.15– 17.45 Panel discussion

Supported by:
Register at https://europeanhealthcaredesign2021.hubilo.com
SESSION 18
The art and science of infection control
Chair: Coen van den Wijngaart, Archipelago, Belgium
10.30 Lessons from cancer care design in an age of pandemics
Catherine Zeliotis, Stantec, UK
10.45 Design and materials choices in the fight against multidrug resistance
Lucie Garreau-Iles; Mike Demko; Nate Schwartz, DuPont, Switzerland
11.00 The forgotten art of healthcare lighting: a mission-driven approach to creating better human outcomes with light
Jonathan Rush; Ruth Kelly Waskett, Hoare Lea, UK
11.15 Making the invisible, visible – airborne particle monitoring and control systems integration with ventilation canopies for improved infection control and higher patient and staff safety
Scott Pickering; Adrian Hall, Brandon Medical, UK
11.30–12.00 Panel discussion

SESSION 19
Designing for emergency, trauma and critical care
Chair: Bill Hercules, WJH Health, USA
13.30 Neuroarchitecture applied to emergency facilities
Clara Rius; Ramon Torrents, Estudi PSP Arquitectura, Spain
13.45 Exploring healthcare workers’ perception on the role of the physical environment in causing disruptions and interruption in trauma rooms
Sara Bayramzadeh; Md Mazharul Islam; Leong Yin Chiu; Mary Anthony, Kent State University, USA
14.00 New design innovation for intensive care units that support healing
Bjoern Werner, HT Group, Germany
14.20–14.50 Panel discussion

SESSION 20
Creating the environment for modern ward rounds for multidisciplinary inpatient review
15.30–16.45 The Royal College of Physicians and Royal College of Nursing, together with the Royal Pharmaceutical Society, Chartered Society of Physiotherapy and NHS Improvement, have developed updated guidance on ‘Modern ward rounds for multidisciplinary care in hospital wards’. Key elements include: space for multi-professional confidential discussion about and with patients; reducing noise levels to improve cognition; minimising interruptions; interactions with technology to improve information sharing and records; reducing hierarchy to improve communication; and decision-making. This workshop will explore opportunities and challenges in hospital wards to creating the best environment for high-quality multidisciplinary care.
Chair: John Dean, Royal College of Physicians, UK
Panel: Andrew Rochford, NHS England & NHS Improvement, UK; Nicky Ashby, Royal College of Nursing, UK; Jennifer Flatman, Royal College of Physicians; Clinical pharmacist, UK

SESSION 21
The future hospital: clinicians’ perspectives
17.15–19.00 Bringing into focus the clinician’s journey, our panel of medical doctors and subject experts will explore how their work informs what the hospital of the future could become. The hospital redefined can become an integrated part of an effective care healthcare infrastructure, a centre of learning, and a body of people serving a multidisciplinary distributed network for care. We will discuss how facilities may be planned and designed using new concepts from frontline experts, and consider how place impacts the health, wellbeing and performance of clinical teams, healthcare organisations, and their patients, families and communities.
Hospitals and healthcare systems must address today’s public health issues and accommodate patients who are increasingly older, frailer, and present more with increasingly complex needs. The transformational opportunity arising from technological innovations, data analytics, and real-time access to remote expertise fundamentally changes the clinical team’s workflow, collaboration, education, and thus the physical spaces required.
Panel: Eve Edelstein, Clinicians for Design, USA; Anita Honkanen, Stanford University School of Medicine, USA; Ruth Fanning, Stanford University School of Medicine, USA

Register at https://europeanhealthcaredesign2021.hubilo.com
SESSION 22
Keynote plenary: COVID-19 Global Summit
Chair: John Cooper, Architects for Health, UK
09.00 Keynote address
Layla McCay, Director of policy, NHS Confederation, UK
09.15 Keynote address: A global pandemic: the role of the National Centre for Infectious Diseases in Singapore
Leo Yee Sin, Professor; Executive director, National Centre for Infectious Diseases, Singapore
09.30–10.15 Panel discussion

SESSION 23
Learning the lessons across the care continuum
Chair: Marte Lauvsnes, Sykehusbygg, Norway
11.00 Relocate, repurpose and reorganise: the hospital response to the pandemic challenge
Cristiana Caira, White Arkitekter, Sweden
Jonathan Erskine, European Health Property Network, UK
11.15 Transformation: lessons learned from a Danish Covid-19 hospital
Birgitte Gade Ernst, Arkitema Architects, Denmark
11.30 Learning from Covid-19: meta-design indications to support health facilities to respond to future epidemic events
Erica Brusamolin, Politecnico di Milano, Italy
11.45 Beyond Covid-19 – recovery, reset and reframe healthcare
Michele Wheeler, AECOM, Hong Kong
12.00–12.30 Panel discussion

SESSION 24
Caring for older people in a pandemic
Chair: Sylvia Wyatt, Health and care strategic advisor and consultant, UK
13.45 Nursing home design and Covid-19: balancing infection control, quality of life, and resilience
Thomas Grey, Trinity College Dublin, Ireland
Diana C Anderson, VA Boston Health System, USA
Sean Kennedy; Desmond O’Neill, Trinity College Dublin, Ireland
14.00 Post pandemic: a new conceptual model for ageing in place
Eva Henrich; Tatiana Epimakhova, TEEH, Germany
14.15 Use of digital healthcare services by elderly population
Noemi Bitterman, Technion, Israel
14.30 Virtual reality for dementia
Linda Jones, Eldergarten, New Zealand; Rosa Baños, University of Valencia, Spain
14.45–15.15 Panel discussion

SESSION 25
Rapid and adaptive pandemic response
Chair: Cliff Harvey, Niagara Health, Canada
15.45 Pandemical healthcare architecture and social responsibility – Covid-19 and beyond
Stephen Verderber, University of Toronto, Canada
16.00 Modular complex project
Josiane El-Asmar; Louis Boissonneault; Kevin Cassidy; Anne Tremblay-Michaud, WSP, Canada
16.15 Resilience through surge induced adaptive re-use: hotel to hospital and back again
Beau Herr; Jim Henry; Clay Markham, CallisonRTKL, USA
16.30 Covid-19’s impact on the emergency department (A/E): rethinking flow, architecture, engineering, communications and technology in future ED design for the safety of patients, families and staff
Jon Huddy, David White, Huddy HealthCare Solutions, USA
16.45–17.15 Panel discussion

Register at https://europeanhealthcaredesign2021.hubilo.com
DAY 3, STREAM 8: POPULATION HEALTH / HEALTH SYSTEMS
16 June 2021 Main stage (all times are British Summer Time; all sessions streamed exclusively online)

SESSION 26
Health and housing
Chair: Liz Paslawsky, SALUS Global Knowledge Exchange, Australia

08.00 Health versus high density: can we have both?
Sarah Lewandowski, ClarkeHopkinsClarke Architects, Australia
Andrew Curnow, Carr Design, Australia

08.15 The case for creating homes for key workers above existing buildings
Arthur Kaye, Skyroom, UK

08.30 Emerging domains for facilitating healthcare via home environments for non-communicable diseases and multimorbidity management
Eva Hernandez-Garcia; Dr Evangelia Chrysikou; Andrew Edkins, University College London, UK

08.45 Using data science analysis in the design, delivery and management of social housing to enhance resident health and wellbeing outcomes
Jordan Relfe; Brendon Stubbs; Adam Hinds, LifeProven Technologies, UK

09.00–09.30 Panel discussion

SESSION 27
Integrated care and community health
Chair: Chetna Bhatia, SAA Architects, Singapore

10.00 Building in resilience to improve primary-community care facilities
Jonathan Wilson, GB Partnerships, UK
Marc Levinson, Murphy Philips Associates, UK

10.15 Buronga HealthOne: a case study for the role of art, landscape and architecture in Indigenous community engagement
Ian Gibson, NBRS Architecture, Australia
Rita Corbett, NSW Health Infrastructure, Australia

10.30 The future of community healthcare
Helen Revitt; Alison Evans, AHR, UK

10.45 Forget me not. Community paediatrics within integrated care systems
Jack Goodall, ETL, UK

11.00–11.30 Panel discussion

SESSION 28
The hospital at home
Chair: Beau Herr, CRTKL, USA

14.15 Supporting safe transitions home after surgery: perspectives from older adults undergoing joint replacement surgery
Rutali Joshi; Sahar Mihandoust; Anjali Joseph, Center for Health Facilities Design and Testing, Clemson University, USA
Kapil Chalil Madathil, Clemson University, USA

14.30 The hospital as a home for a virtual-reality care service centre (VR4Service)
Merlijn Smits, Harry van Goor, Radboudumc, Netherlands

14.45 Hospital@home essential armoury in the response to the Covid pandemic
Rebekah Schiff; Paul McEnhill; Matthew Quinn; Maria Oyston; Sharmila Walters, Guy’s and St Thomas’ NHS Foundation Trust, UK

15.00–15.30 Panel discussion

SESSION 29
Health in the city: campuses, precincts and communities
Chair: Jim Chapman, Manchester School of Architecture, UK

16.00 Evolution in academic health: the planning and potential of world-class academic health precincts
Mike Apple; Rob Blue; Jon Crane; Jeri Brittin, HDR, USA

16.15 Creating a multi-faceted health campus
Louise Shepherd CBE; David Powell, Alder Hey Children’s NHS Foundation Trust, UK

16.30 Health on the high street – the logic, the challenges and the opportunities
Karen Smith; Paul Styler; Kelsey Price, ETL, UK

16.45–17.15 Panel discussion

</tbody>
</table>

## SESSION 31
The future of healthcare planning

In this session, members of the newly formed Health Planning Academy will be debating the role of planning as a discipline in informing the future design, configuration and delivery of healthcare to citizens. The debate will address the growing trend of the creation of population-based integrated health systems as the preferred model for organising and delivering healthcare, and whether markets and competition will be replaced by planning to deliver efficiency in these systems. As part of this debate, there will be a discussion on what skills and disciplines will be required of healthcare planners of the future.

Panel: Richard Darch, Archus, UK, Tina Nolan, ETL, UK, Danny Gibson, MJ Medical, UK

## SESSION 32
User and stakeholder engagement
Chair: Stephanie Williamson, Guy’s and St Thomas’ NHS Foundation Trust, UK

<table>
<thead>

## SESSION 34
**Workforce and workplace design in healthcare**
**Chair:** Jeremy Myerson, Royal College of Art, UK

<table>
<thead>
<tr>
<th>Time</th>
<th>Event</th>
</tr>
</thead>
</table>
| 09.00  | Optimising moral resilience and workspaces for residential aged care nurses | Lucio Naccarella, University of Melbourne, Australia  
Karrie Long, Royal Melbourne Hospital, Australia  

| 09.15  | Why offices matter in healthcare. Empowering staff to care for patients | Lizette Engelen, Engelen2, Netherlands  
Monika Codourey, Offconsult, Netherlands  

| 09.30  | The next-generation workforce | Mark Horwood-James; Sue Jauncey, Appellon, UK  

| 09.45–10.15 | Panel discussion |  

## SESSION 35
**Arts and health: creative partnerships to build better healing environments**
**Organised by:** Art in Site

<table>
<thead>
<tr>
<th>Time</th>
<th>Event</th>
</tr>
</thead>
<tbody>
<tr>
<td>10.45–12.30</td>
<td>This collaboration between Art in Site (AiS) and NHS National Performance Advisory Group on Arts, Heritage and Design (NPAG) will focus on the role of creative partnerships in helping to build better healing environments for the future. Touching on key international case studies, and exploring themes of identity, integration and engagement, we aim to reimagine and improve working relationships between artists/designers and architects, project managers, patients, clinicians and healthcare staff to create inspiring and effective healing environments, and to pool and develop new models of working. How are partnerships key to creating a healing environment, and how can arts managers/consultants help those relationships to thrive and grow? What is needed to achieve outstanding outcomes? How can policy, knowledge and structural changes help to better support these partnerships? This workshop will feature a mixture of guided group discussions and exercises, with breakout rooms and interactive drawing/brainstorming exercises, and a concluding period to share insights and learnings. No prior knowledge of arts in health schemes is necessary. This workshop is the first in a series of longer-term events from AiS and NPAG, which aim to build best practice knowledge on the role of the arts in creating a healing environment.</td>

**Supported by:**
SESSION 39
Pandemic resilience: design strategies and responses
Chair: Paul Bell, Ryder Architecture, UK

08.00 How will Covid-19 change healthcare design?
Matthew Holmes, Jacobs, Australia
Diana C Anderson, VA Boston Healthcare System, USA; Jacobs, Australia

08.15 Redesigning hospitals for the telehealth revolution we just had
Michaela Sheahan, Hassell, Australia
Emma Thomas; Helen Haydon; Anthony Smith, University of Queensland, Australia

08.30 Pandemic preparedness through design
Tania Wee, Choon Mei Toh, DP Architects, Singapore

08.45 Together we build to fight the virus – the construction of the first MiC Hospital in Hong Kong
Lily Chiu, China State Construction Engineering (Hong Kong), Hong Kong
Allen Leung, Architectural Services Department, Government of Hong Kong, Hong Kong

09.00–09.30 Panel discussion

SESSION 40
Infection control and airborne transmission
Chair: Jonathan Erskine, European Health Property Network, UK

10.30 We are what we breathe – the historical burden of shared air and the future of indoor air quality
Patrick Chambers, Stantec, Australia

10.45 How to increase the safety of medical personnel in a hospital – protective airflow solution
Ismo Grönvall, Halton, Finland

11.00 Fighting airborne transmission: the use of ultraviolet germicidal irradiance (UVGI) in the battle against hospital-acquired infections and Covid-19
Dan Lister, Arup, UK
Paul Lynch, Arup, UK

11.15 Providing a safe environment for operating on non-infectious and infectious patients
Richard Knight, Richard Knight Consultancy, UK
John Thatcher, Eastwood Park Training Centre, UK
Richard Brown, Halton, UK

11.30–12.00 Panel discussion

SESSION 41
Managing capacity in a pandemic
Chair: Jonathan Wilson, GB Partnerships, UK

14.00 Helping the NHS address capacity challenges and improve resilience
Alan Dunlop; Tony Nichol; Christel Hengeveld; Andrew Rolf, Arup, UK

14.15 ICU in a box: a small change that made a big difference to pandemic preparedness
Amanda Maunders; Gary Thomson; Stephanie Hawthorne, Guy’s & St Thomas’ NHS Foundation Trust, UK

14.30 Pandemic resiliency: lessons learned from US military health system
Nolan Rome, WSP, USA
Deborah Wingler; Brent Willson, HKS, USA

14.45–15.15 Panel discussion

Register at https://europeanhealthcaredesign2021.hubilo.com
SESSION 42
Sustainable development – modern methods of construction
Chair: Sam Shooter, Hoare Lea, UK

09.30 The Grange University Hospital – how 3D design and offsite construction delivered a flexible facility ahead of schedule
Stuart Renshaw, WSP, UK; David Leverton, Laing O’Rourke, UK

09.45 Accelerating capabilities and advancing business models for modern operating theatre manufacture
Grant Mills; Anne Symons; Philip Astley, University College London, UK
Chris Goodier, Loughborough University, UK

10.00 Designing St George’s: a hospital fit for today and an unknowable future
Martina Cardi; Paul O’Neill, Bryden Wood, UK

10.15 Standard platform for healthcare buildings
Alan Kondys, Vinci Construction UK and IHP, UK; Clive Guyer, Murphy Philipps, UK; Steve McSorley, Perega, UK; Naddy Parperi, TB+A, UK

10.30–11.00 Panel discussion

SESSION 43
Smart technologies in the modern operating room

12.00–13.00 De-risking deployment in a MMC build, supporting net-zero and digital medicine
This workshop aims to demonstrate the modular build philosophy of the smart technology systems and how standards-based adaptable solutions provide flexibility in design. We present an overview of a range of innovations that provide an adaptable solution to the deployment of technologies in the modern operating room environment. We will show how adaptable systems can be specified early in the project and still meet user requirements at the point of delivery. Technologies covered will include: intelligent theatre control panels; communication via any industry protocol and integration with building management systems to provide fault monitoring, usage reporting and run-time statistics; networked audio and video distribution systems; operating theatre lighting systems and intelligent emergency back-up power units; and pendants and monitor carriers, equipped with multi-channel fibre optic connectivity supporting video resolutions up to 8K.

Panel:
Adrian Hall, Brandon Medical, UK
Richard McAuley, Brandon Medical, UK
Scott Pickering, Brandon Medical, UK

SESSION 44
Research makes a difference – detailed approaches and broad impacts

14.30–16.00 Research is strictly focused and framed by theory, method and approach. To succeed in academia our research addresses minuscule parts of the world we live in. It is a way of adding bits of knowledge to the canvas of knowledge. At the same time, healthcare and the design of its environments are complex and challenged by ever-changing approaches and processes, clinical as well as physical.

With a growing research field addressing aspects of healthcare and design-related issues, the question arises of evidence, impact and contribution to health. As our environments are complex, an understanding of the design for use and the actual use of the buildings is important to study. Also, the different actors and needs must be understood. A key question is: what is the relationship between design and effects on health?

So, how do our research and approaches make a difference? How do we contribute with design research studies of various types to the practice of building for healthcare as well as, most importantly, for health in itself? The seminar will address this transfer and discuss challenges researchers face, the impact of research outcomes, and what difference healthcare design research makes. The seminar is organised jointly with the research conference ARCH22.

Organised by: Brandon Medical, UK

Panel:
Goran Lindahl, Chalmers University, Sweden
Clarine van Oel, TU Delft, Netherlands
David Allison, Clemson University, USA
The poster + video gallery is a dedicated zone within the virtual platform open to delegates throughout the congress. Here, you will be able to explore innovative research and project presentations in a highly visual, stimulating and dynamic environment, along with the ability to make contact and network with the authors and presenters.

P01 A health grid: should healthcare systems operate more like a power grid?  
Anthony Roesch, Kirstin Ziemer, HOK; Anthony Rosania, Rutgers New Jersey Medical School, USA

P02 The Royal Papworth Hospital: until the day you feel good. A collaboration between architect and artist  
Ian Fleetwood, HOK, UK; Adam Ball, Artist, UK

P03 Design considerations for the modern operating theatre: supporting the implementation of medical video, audio and communication systems  
Richard McAuley, Adrian Hall, Brandon Medical, UK

P04 ‘Lightworks’: combining artwork with lighting to combat the clinical dark age  
Peter Shenai, Martin Jones, Louise Williams, Art in Site, UK

P05 The bigger picture for healthcare design: using evidence-based design and co-creation to develop more effective concepts for the healthcare system  
Jonas Rehn-Groenendijk, Darmstadt University of Applied Sciences, Germany

P06 Designing for patient empowerment in the face of SARS-Covid-19 challenges: Noctura 400 case study  
Stuart English, Rafiq Elmansy, Northumbria University, UK

P07 Improving adherence in self-administered treatment technology through design  
Rafiq Elmansy, Stuart English, Northumbria University, UK

P08 Envision wellness – understanding trauma and youth experience in mental health  
Alison Huynh, Daniel Calvetti, Michelle Lee, Ian Gibson, NBRS Architecture, Australia

P09 Building temporary quarantine camps to fight against Covid-19 – the Hong Kong experience  
Paul Chun-ka Lee, Lawrence Hin-man Ko, Christina Hoi-lying Poon, Hong Kong Architectural Services Department, Government of Hong Kong, Hong Kong

P10 Principles of design for ergonomic pendant solutions for minimally invasive surgery and shorter recovery times in intensive care units  
Scott Pickering, Adrian Hall, Brandon Medical, UK

P11 Modern methods of construction and standardisation – what does it mean and how are we really going to achieve this?  
Andrew Rolf, Arup, UK

P12 Design dissonance: what clinicians need from buildings to give and receive care  
Eve Edelstein, Clinicians for Design, USA

P13 Digitalisation – navigating with care  
Louise H Kristiansen, Peter Donner, Steinar Valade-Amland, Triagonal Information Design, Denmark

P14 Are waiting areas in hospitals perceived as therapeutic spaces?  
Eleni Tsiantou, UCL, Greece; Evangelia Chrysikou, Hina Lad, UCL, UK

P15 Innovation at the core  
Graham Cossons, Sam Shooter, Ben Baker, Hoare Lea, UK

P16 A home to be yourself: attempting to design an innovative environment for people living with dementia  
Loukia Minetou, UCL, UK

P17 Employing design futuring techniques to avoid creative destruction and prompt eudaemonia in healthcare environments (for patients and healthcare workers)  
Jenna Mikus, Queensland University of Technology, Australia

P18 Architecture as a catalyst for healing  
John Latto, Xi’an Jiaotong, Liverpool University, China

P19 Modern standards for medical video systems: infrastructure required for 4K UHD and beyond in the operating room  
Richard McAuley, Adrian Hall, Brandon Medical, UK

P20 Web-based standards made simple  
Regina Kennedy, Tina Nolan, ETL, UK; Gavin Thompson, BuroHappold Engineering, UK; Sean Madden, Hamad Medical Corporation, Qatar

P21 Can architecture be ethical?  
David Martin, Stantec, UK

P22 Designing wayfinding systems for (neuro)diversity  
Louise H Kristiansen, Peter Donner, Steinar Valade-Amland, Triagonal Information Design, Denmark

P23 The importance of in-house project management in stakeholder management to reach resilient design solutions  
Clarine van Oel, Delft University of Technology; Liesbeth van Heel, Erasmus MC; Burçak Yalniz, Architect, Netherlands

P24 Everyday objects as therapeutic elements in psychiatric wards – co-design workshop for reducing institutionalisation in mental health facilities  
Jonas Rehn-Groenendijk, Helena Müller, Darmstadt University of Applied Sciences, Germany; Evangelia Chrysikou, Bartlett Real Estate Institute UCL, University College London, UK

P25 Introducing ‘eudaemonic design’: an approach to curating health at home to avoid time in hospital  
Jenna Mikus, Queensland University Of Technology, Australia

P26 Ecurbanism – a whole-system approach to post-Covid healthcare  
Luke Engleback, Studio Engleback, UK

P27 Resilience planning in an emergency  
Ruth Strickland, MTS Health, UK

Register at https://europeanhealthcaredesign2021.hubilo.com
Supporting a unique professional development programme at EHD2021 are a range of event features, including an Innovation Zone, the Awards Poster + Video Gallery, and networking opportunities for 1-2-1 and group video meets.

With over 200 speakers, keynotes, panel discussions, workshops, posters, videos and more besides, European Healthcare Design 2021 is the world’s leading forum for exchange of research findings, best practice and policy thinking on the design of health systems, services and infrastructure. And the event also offers delegates a diverse range of other opportunities to network and develop their knowledge of the healthcare design field.

**Networking**
A variety of options are available to participants to connect and meet with industry colleagues and make new contacts. Participants will be able to view all attendees at the event and connect to them to arrange a meeting time over a video call, or to chat by text using the live messaging service. Each participant can create their own dedicated profile, specifying their areas of interest and job role. Participants can chat with their contact right away or request a 1-2-1 video chat meeting. If you want to video chat with more than one attendee at the same time, head over to the Networking Lounge and grab a table to talk.

Networking Lounges enable two or more participants to interact via video call, by simply entering the lounge and taking a free seat at any of the tables. A variety of tables for between two and 20 people will be available for 1-2-1 and group meetings. Exhibitors in the Innovation lounge will also be able to create their own meeting tables.

Working with our partners and sponsors, we also plan to organise attendee competitions throughout the event to reward more active participants, create networking opportunities, and maximise interaction between attendees, event partners and event sponsors.

- Leverage attendee networking
- Lounges for small group discussions
- Access to the attendee list
- 1-2-1 video meetings
- 1-2-1 chats
- Competitions

**Awards Poster + Video Gallery**
The European Healthcare Design 2021 Awards celebrate and recognise professional and research excellence in the design of healthcare environments both in Europe and around the world. In each of the nine categories, this year’s shortlisted awards entrants will feature a poster and video of their project or innovation on a dedicated page within the Awards Gallery for participants to learn about this year’s potential prize winners, before the awards ceremony in the final session on Thursday 17 June. Videos of the live judging webinars, which are taking place on 18, 19 and 20 May, will also be made available.

**THE INNOVATION ZONE**
All participants will have access to the Innovation Zone, an area of the event dedicated to learning about the latest design solutions, technological innovations and creative projects from our event partners and sponsors. Participants will be able browse profiles, connect with team members, view projects and project images and videos, and download literature, including white papers, project case studies and product information.

**Innovation Zone – Seminar Rooms**
Linked to the Innovation Zone, this year’s virtual congress will feature a series of themed seminar rooms, where different sessions, focused on a diverse range of topics and themes, will be organised at different times during the congress. Topics will cover educational and professional development sessions, and themes such as the arts, technology and innovation, in a variety of formats, including: technical presentations; product demos and launches; development roadmaps; Q&As; case studies; showcases; and roundtable seminars. The full seminar programme will be launched at the beginning of May.
DELEGATE REGISTRATION

As well as virtual networking, delegates will enjoy unique professional development opportunities, building knowledge of the socio-economic global context, and emerging practice, skills and core competencies in designing and commissioning health services, technology and infrastructure, project management, and the evidence base for healthcare design, sustainable development and quality improvement.

Registered participants will receive virtual access to both ‘live’ streaming and video recordings of all sessions for ‘on-demand’ viewing for one month after the event.

A range of tickets are available, giving attendees from all over the world great value for money. Registration is open now with Early Bird savings for individual and group bookings until 14 May. Visit www.europeanhealthcaredesign.eu for details.

**Early bird rates (until 14 May):**
- 4-day ticket: £195.00 (+ VAT in the UK)
- 1-day ticket: £75.00 (+ VAT in the UK)

**Early bird group rates (until 14 May):**
- 3 individual 4-day tickets: £497.25 Save £87.75 (15%) (+ VAT in the UK)
- 5 individual 4-day tickets: £780.00 Save £195.00 (20%) (+ VAT in the UK)
- 10 individual 4-day tickets: £1462.50 Save £487.50 (25%) (+ VAT in the UK)

**Standard rates (from 15 May):**
- 4 day ticket: £245.00 (+ VAT in the UK)
- 1-day ticket: £95.00 (+ VAT in the UK)

**Standard group rates (from 15 May):**
- 3 individual 4-day tickets: £625.00 Save £110.00 (15%) (+ VAT in the UK)
- 5 individual 4-day tickets: £980.00 Save £245.00 (20%) (+ VAT in the UK)
- 10 individual 4-day tickets: £1837.50 Save £612.50 (25%) (+ VAT in the UK)

Members of Architects for Health, the Union of International Architects – Public Health Group, Australian Health Design Council, New Zealand Health Design Council, Design in Mental Health Network and the European Health Property Network are entitled to discounted rates. Please apply for your discount code by emailing info@europeanhealthcaredesign.eu.

**Please note:**
A discount code may only be used once by the same user; VAT is not applicable to tickets bought by registrants outside the UK.

SPONSORSHIP AND INNOVATION ZONE

By sponsoring or exhibiting at EHD2021, your organisation will be supporting and participating in the creation and exchange of knowledge between 1000 of the world’s leading health researchers, practitioners and policymakers.

A knowledge-led approach to sponsorship creates opportunities to align your brand with a range of content-focused offerings, including keynote and themed streams and sessions, posters and workshops. These can be combined with other exciting content and branding opportunities to interact with the participants, such as hosting your own themed seminar room and a virtual stand within the Innovation Zone, enabling you to promote and provide professional development on your latest technologies, products and projects. The Innovation Zone is ideal for technical presentations; product demos and launches; development roadmaps; innovation Q&As; case study showcases; and roundtable seminars. Each sponsorship opportunity also includes a generous number of delegate passes to support your own team’s professional and business development, and to offer to your healthcare clients.

The publication and dissemination of videos of all the talks, full written research papers, and posters on SALUS Global Knowledge Exchange (www.salus.global) and SALUS TV also ensure that your sponsorship support gains from association with the congress partners, content and outputs across multiple social media channels all year round.

A range of sponsorship packages is available from £2000-£6000 with discounts on purchases of two packages or more. Click on Sponsorship in the top navigation at www.europeanhealthcaredesign.eu to view available packages or contact Marc Sansom directly at marc@salus.global.

AWARDS SPONSORSHIP

By sponsoring the EHD2021 Awards, you can show your support and recognition of the outstanding performances of the award winners, aligning your brand in UK, European and international markets around the values of design excellence and innovation.

Your brand will also gain international exposure through the digital marketing around the congress and the awards. This includes promotion of the shortlist announcement before the event; e-news announcements of the award winners; broadcasting during the event of the videos of the shortlisted projects’ presentations and the closing awards ceremony; as well as making these available to watch post event via SALUS TV. Live judging of the shortlisted presentations is planned for 18, 19 and 20 May.

We look forward to confirming your support and partnering with you in the raising of design quality standards around the globe.

For more information, please contact Marc Sansom at marc@salus.global.
THE PROGRAMME COMMITTEE

Emma Stockton MD  
Consultant paediatric anaesthetist,  
Great Ormond Street Hospital for Children, UK

Chetna Bhatia  
Principal (healthcare), SAA Architects, Singapore

Prof Noemi Bitterman PhD  
Academic director, Masters of Industrial Design (MID), Technion, Israel

John Cooper BA Dip Arch, RIBA  
Director, John Cooper Architecture (JCA), UK

John Cole CBE  
Honorary professor,  
Queen’s University Belfast, UK

Göran Lindahl PhD  
Associate professor, head of division building design, Chalmers University, Sweden

Ganesh Suntharalingam MB BChir  
President, Intensive Care Society, UK

Christine Chadwick  
Principal, CannonDesign, Canada

Sasha Karakusevic BDS, MBA  
Project director, NHS Horizons; senior fellow,  
Nuffield Trust, UK

Sylvia Wyatt MA, AHSM  
Health and care strategic advisor and consultant, UK

David Allison FAIA, FACHA  
Alumni distinguished professor; director of architecture + health, Clemson University, USA

Evangelia Chrysikou  
Programme director, MSc Healthcare Facilities,  
Bartlett Real Estate Institute, UK

Marte Lauvsnes  
Manager, Advisory and Planning Department,  
Sykehusbygg, Norway

Karim Imoberdorf Dipl Arch, MPH  
Architect, LEAD Consultants, Switzerland

Upali Nanda PhD  
Principal and director of research, HKS, USA

Davide Ruzzon  
Director of TUNED, Lombardini22, Italy

Christopher Shaw, chair, Architects for Health

Jonathan Erskine, director, European Health Property Network

Kate Copeland, chair, Australian Health Design Council

Jim Chapman, visiting professor, Manchester School of Architecture

Alessandro Caruso, director, Design in Mental Health Network
